March 27, 2020

Dear Tribal Leaders of the YK Delta:

As Calista continues to monitor the COVID-19 pandemic and impacts to our state, Calista leadership has determined that it is in the best interest of everyone to postpone the Regional Tribe Summit to a later date.

The original meeting was scheduled for May 7-8, 2020 in Anchorage. We encourage you to continue sending in tribal authorizing resolutions so our planning efforts can continue while we are under a shelter in place mandate. We will keep you posted on a new meeting date once we know more.

The health of our shareholders and rural communities is Calista's top priority. To keep your communities safe, we strongly encourage you to continue to follow the advice of the Centers for Disease Control and Prevention (CDC) and State of Alaska in response to the COVID-19 virus. Find more information about COVID-19 here [www.cdc.gov/coronavirus](http://www.cdc.gov/coronavirus) and here [www.calistacorp.com/covid19](http://www.calistacorp.com/covid19).

Here is a link to an article authored by Andrew Guy, Calista President/CEO, and Robert Beans, Calista Board Chairman, regarding COVID impacts to rural Alaska that was recently published in Delta Discovery:
